WORK EXPERIENCE

IT Support and Web Development, Health Assur Ltd,
April, 2018 – Present, Lagos
Health Assur Ltd is a health Insurance organization with an appetite for technological advancement of its processes.

- Developed a web platform for the launch of a new digital health plan that enabled subscribers to buy the plan and book appointment with a doctor online. This was fully achieved by integrating the API of a payment platform and PHP and MySQL to handle the backend. HTML, CSS, Bootstrap 3 and JavaScript were used for the frontend.
- Actively monitored the deployment of an internal HMO web application.
- Acquired low cost web hosting solutions significantly reducing cost of hosting solutions by 50%.
- Secured organization's website with SSL to keep data from security breaches.
- Handled all IT challenges in Networking and network devices.
